A TRIBUTE TO A QUEEN

Devortrey McMurray is best known as the critically acclaimed headliner comedian, *Skeeter Murray*, who has traveled the United States of America. What he found were some of the most beautiful and graceful women that the world has to offer. Women of all nationalities and races, which he wholeheartedly glorifies and respects. He has discovered that history, along with mass media, can fall short at times of acknowledging African-American women for their contribution to our great country. Although his career as a comedian has been put on hold, due to an unforeseeable auto accident that barely left him escaping with his own life, he has not let this stop him from creating an edifying gift to Black Women. Devortrey is very excited to present his tribute to African-American Queens. An incredible fantastically written poem that lifts and inspires love, encourages and empowers inner strength needed to integrate with others. The "A TRIBUTE TO A QUEEN," poem is an American treasure that will last a life-time, to be passed down for generations to come. As descendants of Africa, it is important to know your strengths and worth. To be lifted up in both, Black American Families and in Black Culture. Civil rights leader's have fought and died to preserve these rights. The "A TRIBUTE TO A QUEEN," honors all women in spirit. It exalts the younger and mature Black American Women for their exquisite beauty, intellect and strength. It sets them apart, yet together as women of great authority in this amazing world.
